THE FRAMEWORK

Procure Plus are procuring a framework agreement for the completion of planned installation and repair works. The works will predominantly be undertaken in social housing properties but may also be carried out in other public buildings. The framework agreement operates in such a way as to separate the completion of the works covered by the framework, from the procurement of the materials required. Contractors appointed to the framework agreement will be required to interact with and source certain materials from the suppliers who are appointed to other Procure Plus framework agreements. Contractors appointed to the framework agreement will also be expected to share Procure Plus's commitment to social value and specifically the creation of training and employment opportunities.

GET INVOLVED

Procure Plus are undertaking a competitive tender that will be fully compliant with the Public Contract Regulations 2015. The process will be fair, straight forward and easy to complete. Through out the tender process the Procure Plus team will be on hand to support and help including holding weekly Q&A sessions for bidders and interested companies.
